AASCB International
Initial Accreditation Handbook

PREFACE

This handbook is one in a series of three handbooks covering all aspects of the accreditation process. It should be read in conjunction with the other two handbooks covering “The Accounting Accreditation Process” and “The Continuous Improvement Review Process.”

This handbook focuses on the Initial Accreditation phase of the accreditation process. It provides a clear understanding of the philosophy, procedures and guidelines for the Initial Accreditation Process, which includes: the submission of the Eligibility Application, the determination of the scope of accreditation, the self-evaluation and alignment with standards, and an initial accreditation visit. Where possible, the School should follow these directions. However, Mentors and Peer Reviewers should remain somewhat flexible in conducting reviews to achieve the conceptual aims that (1) bring value to the School, (2) maintain the integrity of AACSB International accreditation, and (3) provides the type and level of learning experiences that mark an effective accreditation process. Where the Schools, Mentors or Peer Reviewers find they must improvise to accomplish the purposes of the review, documentation of any deviations must be provided.

The online peer review training, accessible via the AACSB website, provides additional information and guidance for all areas of the accreditation process. The training is accessible at: http://www.aacsb.edu/accreditation/volunteers/training/.

Another useful source of information is the Accreditation Staff Liaison. Each institution has an assigned Accreditation Staff Liaison to assist with the business and accounting review process. This individual serves as the designated AACSB staff member for all accreditation related questions and is the liaison between the institution leadership and the volunteer network (mentors, peer review team members, accreditation committee, etc.). The staff liaison is available to assist with any questions regarding the Initial Accreditation Process. The institution’s staff liaison can be found by logging onto the myAACSB section of the website (www.aacsb.edu) and viewing the institution in the organization directory.

Throughout the rest of this document the accredited academic business unit is referred to as the (business) School. The term school is used to describe the entity that offers programs and is not meant to imply any particular organizational structure.

I. THE INITIAL ACCREDITATION PROCESS OVERVIEW

Purpose of the Initial Accreditation Process

The purpose of the Initial Accreditation Process is to establish stable, constructive, ongoing, and helpful partnerships between AACSB International and Schools working toward AACSB accreditation. To assure the quality of this assistance program, policies and procedures have been developed that outline the expectations and commitments for each partner.

Benefits of the Initial Accreditation Process for the School

Schools participating in the process are strongly committed to the goal of quality enhancement and continuous improvement. They possess the desire to secure accreditation. Schools benefit from the Initial Accreditation Process by receiving ongoing assistance that fosters continuous improvement and minimizes non-productive or misdirected efforts. Schools receive experienced counsel from a trained Mentor during the period and feedback through interactions with the Initial Accreditation Committee (IAC). The process culminates with an on-site visit in which the School is evaluated on its alignment with the accreditation standards and receives consultative advice from experienced Peer Reviewers.

Importance of Commitment

Overall responsibility for meeting the standards for accreditation lies with the School. Strong commitment by the central administration and the dean is a necessary but not a sufficient condition for success; stakeholder involvement is essential. Accountability for execution of the Self-Evaluation Report (SER) lies with the School and is a critical element for success.

II. THE ELIGIBILITY APPLICATION PROCESS

Eligibility Application Process

AACSB International membership is a pre-requisite for entering the accreditation process. AACSB International members are eligible for the following types of accreditation:

- Business Accreditation
- Business Accreditation concurrent with Accounting Accreditation
- Accounting Accreditation for Schools already holding Business Accreditation

For information regarding the Accounting Accreditation process, please refer to the Accounting Accreditation Handbook.

What is Required?

The School submits one set of each of the following items (written in English).

- Eligibility Application
- An organizational chart specifying the structure of both the institution (if applicable), as well as the business School
- Current documents that show the financial condition of the institution and the absolute and relative amount of monetary resources allocated to its business programs
- Strategic plan of the School seeking accreditation
- A non-refundable Eligibility Application fee of $1,000 USD

**When to Submit?**

Eligibility Applications can be submitted at any time during the year. Following a preliminary review by staff, and if found complete and appropriate, the application is forwarded to the first regular scheduled Initial Accreditation Committee meeting for consideration by the full committee. Schools are encouraged to provide a draft of their Eligibility Application to AACSB staff for review prior to the official submission.

**How to Submit?**

The School submits one hard-copy set of the above mentioned items to the Initial Accreditation Committee Chair in care of the AACSB International headquarters:

Chair, Initial Accreditation Committee  
AACSB International  
777 S. Harbour Island Boulevard  
Suite 750  
Tampa, FL 33602-5730  
USA

The School also submits the set of items electronically to the Initial Accreditation Committee Chair at iac@aacsb.edu. The electronic file(s) should be in Adobe PDF or Microsoft Word format.

**III. ASSIGNMENT OF THE MENTOR**

**Assignment of the Mentor**

Upon acceptance of the Eligibility Application, the IAC appoints a Mentor. The Mentor is generally a Dean or Associate Dean from a similar School and/or familiar with the type of School and/or education system in the country. It is a requirement that the proposed Mentor is familiar with AACSB standards and processes. The proposed Mentor needs to be approved and accepted by the School. AACSB will continue to work with the School until a suitable Mentor has been confirmed.

**The Mentor's Term**

The Mentor assists the School for up to two years with the development of an initial Self-Evaluation Report (iSER). Should the iSER not be completed two years after acceptance of the Eligibility Application the School can submit a request for an extension of time to the IAC. This request needs to have the support of the Mentor and will only be granted when the delay is caused by extremely exceptional circumstances (such as natural disasters). Once the iSER is accepted by the IAC, the Mentor continues to work with the School for up to three years as the school works towards full alignment with the standards.
Role of the Mentor

The Mentor serves as a key resource in advising the School on its self-assessment and alignment with the standards. The Mentor may ask questions that will stimulate a School to define its processes, activities and outcomes, as well as present various options to help develop a better understanding of the standards and what they mean for an individual School. The Mentor is a volunteer who receives no compensation from the School or from AACSB International.

Mentor Responsibilities to the School

- Provides clarification of the philosophy and intent of the standards and their interpretations
- Is fully informed about AACSB International accreditation standards, and the accreditation process
- Commits time and availability for on-site visits and regular communication
- Provide feedback relating to the self-assessment, the development of the iSER and progress towards alignment with the standards
- Is encouraging, but also honest and realistic
- Advises the School about possible culture change and the length of time required to accomplish the improvements envisioned by the School
- Assists the School to develop an understanding of the intent of the standards within the context of its mission
- Asks questions that stimulate the School to define its processes, activities and outcomes

Mentor Responsibilities to AACSB /Initial Accreditation Committee

- Consults with the IAC/AACSB International when issues or processes need clarification
- Identifies opportunities for continuous improvement in the overall Initial Accreditation Process
- Provides the IAC liaison with periodic reports on the progress of the development of the iSER
- Identifies and resolves all eligibility issues surrounding the scope of accreditation, diversity and expectations for ethical behavior
- Provides an iSER critique that discusses feasibility of actions to be implemented to align with the standards and the commitment of resources necessary to achieve the goals. If challenges arise that delays the School’s progress in the Initial Accreditation Process the mentor informs the committee (or AACSB Accreditation Staff Liaison) in a timely manner
- Provides a recommendation on accepting the iSER in the form of the iSER Review Template
School Responsibilities to the Mentor and AACSB/Initial Accreditation Committee

- Is sincere about the institutional commitment of resources, time, money, energy, and change required for Initial Accreditation
- Reviews the accreditation standards and identifies areas of strengths and weaknesses prior to the Mentor’s campus visit
- Identifies items in the standards that need clarification
- Provides accurate data and information about the School, its aspirations, commitment, systems, and processes; exhibits complete honesty and openness; provides information on options that could be applied in meeting the standards
- Regards the Mentor as a source of advice; take responsibility for conducting the self-assessment and preparing the iSER
- Works with the Mentor to prepare a campus visit agenda
- Takes consultation seriously and be considerate of the Mentor’s time
- Provides feedback on the quality of the mentoring and mentoring process
- Makes timely payment of appropriate expenses (including airfare, hotel accommodations, meals, transportation, etc.) for the Mentor’s campus visit
- Provides the Mentor with periodic reports on progress toward developing the iSER
- Submits the iSER to the IAC within two years after approval of the Eligibility Application

IV. THE MENTOR VISIT

After the Mentor has been confirmed, it is the School’s responsibility to contact the mentor to schedule the first on-site visit. Materials that can be shared with the mentor at that time are: course catalog(s), web site addresses, curricula, budget, faculty vitae, and other descriptive materials are helpful. The School should also provide materials that are related to the concerns and recommendations specified in the correspondence of the Initial Accreditation Committee.

Although the visit should be scheduled early on in the accreditation process, it is advisable to schedule the visit after the School has conducted a preliminary self-assessment. Generally, the visit occurs in the third month after the Eligibility Application was accepted.

Purpose of the Mentor Visit

Once appointed, the Mentor will conduct an initial on-site visit to:

- Gain familiarity with the School
- Identify and resolve eligibility issues (i.e., scope of accreditation, diversity, expectations for ethical behavior)
- Provide clarification regarding the philosophy and intent of the standards
- Ensure consistent application of standards among faculty, staff and administration
- Analyze the School’s achievement relative to the standards
- Identify issues that may help or hinder potential accreditation
- Confirm the existence of functioning processes and controls that ensure continuous improvement and accomplishment of the mission
- Assist the School in responding to issues identified during the review of the application
- Review measurable outcomes of achievement and functioning of processes designed to produce stated outcomes
- Begin formulating recommendations for quality enhancement and continuous improvement
- Provide insight to the IAC concerning the School’s perceived timetable for development of the iSER

**Preparation for the Mentor Visit**

The School should:
- Initiate contact with the Mentor
- Plan an agenda for the Mentor to review
- Provide the Mentor, prior to the visit, information about the campus and School.
  Suggested information:
  - Eligibility Application
  - Electronic links to program information
  - Brochures
  - Planning documents
  - Budget documents
  - Web site addresses
  - Reports (including annual reports)
  - Program exclusion data (if appropriate)
  - Drafts of materials for iSER, if available
  - Faculty vitae
  - Assessment activities
  - Institutional and departmental organizational charts
  - Internal processes

**During the Visit**

The School should:
- Provide an opportunity for the Mentor to become familiar with the School’s facilities
- Provide opportunities for the Mentor to talk with stakeholder groups (faculty, students, central administration, employers, alumni) about mission and objectives, processes, and resources
- Allow for open discussion of strengths and areas for improvement, role of faculty, and preparation for the iSER

**Following the Visit**

The School should:
- Prepare a draft of the iSER
- Forward appropriate additional information to the Mentor
- Process Mentor’s visit expenses in a timely manner
Mentor Reporting Requirements

Once appointed by the IAC, the Mentor conducts an initial on-site advising visit. During the on-site review, the Mentor identifies, clarifies and resolves eligibility issues, challenges, and opportunities concerning continuous improvement and the likelihood of achievement of initial accreditation within the maximum time allowed (normally 7 years). The Mentor's review of Eligibility Criteria, feedback and recommendations are included in a Mentor Summary Report that is provided to the IAC. Within 10 days of each visit, the Mentor drafts the report and indicates a timetable for completion of the iSER. The summary report consists of three distinct sections: the standard-by-standard summary report, the eligibility criteria recommendation report, and the Mentor visit schedule.

V. MISSION CONSENSUS AND STRATEGIC PLANNING

Relationship to the iSER

Developing an iSER begins with the preparation of a clear statement of the School's mission, vision, and objectives. The mission should:

- Include a commitment to high quality and continuous improvement.
- Identify the level of programs (e.g., undergraduate, master’s, and/or doctoral).
- Include the objectives of each degree program offered and should describe the characteristics of the constituents for whom the programs are designed.
- Indicate clearly the School's commitment to and relative emphasis on impact, engagement and innovation.
- Be consistent with the overall mission of the institution of which it is a part.

A strategic planning process for review and revision of mission and goals should be in place. This process should include inputs from relevant stakeholders and adequate resources should be budgeted for its attainment.

How should the School go about preparing the initial statement of mission, vision, and objectives?

Most Schools will have existing documents (catalog copy, internal documents, etc.) that already identify aspects of its mission. Statements need to be reviewed to assure they are presented in a fashion that facilitates self-evaluation and peer review.

Determining the mission and strategic management objectives should be a dynamic process that periodically, if not constantly, is subject to review and leads to consensus among stakeholders.

VI. SELF-ASSESSMENT

The Self-Assessment Process

The preliminary self-assessment process is the most critical step in assessing the School's readiness to pursue AACSB International accreditation. It is a gap analysis of the strengths and weaknesses of the School relative to each of the accreditation standards and relative
to the School's unique mission and strategic management objectives. As a result, this systematic gap analysis of the School's mission, strategic management objectives, faculty, students, curriculum, instructional resources, operations, intellectual contributions, and processes provides the basis upon which a realistic and comprehensive iSER can be written.

**Conducting the Self-Assessment and Involving Appropriate Stakeholders**

The self-assessment process involves all stakeholders of the School including faculty, administration, students, alumni, and business constituencies. There is no prescribed single approach to conducting the self-assessment. A School must develop a plan that meets its specific needs and guides it through a rigorous self-assessment process.

The plan for conducting the self-assessment should be developed within the first three months of the Initial Accreditation Process. It is not expected that the gap analysis will be completed within this three-month time frame. However, the plan of study should be established noting key questions to be answered, key participants, responsible parties, time frames, and appropriate study methods. Data collection should be conducted to support the objectives of the self-assessment and to assist in answering the self-assessment questions.

**Sources of Information to Guide the Self-Assessment**

Once the self-assessment plan has been developed, all data should be collected, organized, and analyzed. Possible sources of information that can be used to evaluate the School's programs and processes include:

- Regional/National/International accreditation reports
- Internal reports (e.g., program evaluations, outcomes reports, assessment results, exit surveys)
- External reports
- Surveys
- Interviews
- Focus group results
- Other School or University reports

**Characteristics of an Effective Self-Assessment and Gap Analysis**

**Systematic**

The self-assessment should be systematic and well planned to ensure that it is thorough and comprehensive. The School should avoid the temptation to use whatever data is already available and force answers to a set of pre-determined questions. Clearly identify the areas to be addressed, the questions to be answered, and the best ways to secure the most valid and reliable information.

**Objective**

Avoid overstating the results of the gap analysis or focusing only on the weaknesses or limitations that are identified. The weaknesses need to be remedied and the strengths need to be maintained or enhanced.
Multiple sources of input

The standards should provide guidance, but should not be used as a laundry list against which to answer "Yes, we do" or "No, we don't". Use multiple sources of input. Consider which groups are in the best position to provide input on key issues.

Multiple data collection devices

Use multiple data collection devices. Using only reports or the results of one survey will not provide the scope and depth of input that is needed. Use data collection methods best suited to the questions needing answers. For example, the quality of student services, teaching, and interaction with the business community should all be addressed in different ways by different groups.

Multiple reviewers to provide objectivity

Use multiple reviewers to provide a "reality check". Once the self-assessment data is consolidated, the results should be reviewed by various groups to ensure accurate interpretation. These groups might include: the faculty, a planning committee, a student advisory committee, or members of a business advisory council.

Realistic representation of strengths, weaknesses, opportunities, and threats

- Conduct a realistic assessment of strengths, areas for improvement, opportunities, and threats.
- Continue to realistically assess these within the context of the AACSB International standards (i.e. What gaps need to be closed to meet AACSB standards expectations as well as what AACSB standards expectations are currently met and how.)
- Determine the changes, additions, or modifications that may need to be made in programs and processes.

Communicating the Outcomes of the Self-Assessment Process

During the self-assessment, communication should be ongoing with all stakeholders and participants. These include the faculty, staff, students, alumni, and business constituencies. All parties need to understand the Initial Accreditation Process and the responsibilities of the School.

The results of the gap analysis should be shared with the Mentor and should become the basis for the iSER.

VII. INITIAL SELF-EVALUATION REPORT (iSER)

Philosophy and Expectations

The best iSER is accompanied by a strategic management plan that is also attentive to satisfaction of accreditation standards. The process of creating the iSER should naturally flow from, and be part of, the ongoing strategic management process.

A long-standing problem with many iSERs is that they focus solely on closing gaps between current conditions and the conditions necessary to satisfy accreditation
standards. An internally generated iSER that is built on the School's particular circumstances is most likely to yield sustained continuous improvement. One goal of the accreditation process is establishing a differentiated mission which drives the school’s strategic planning process. The iSER should include plans for implementing the school’s mission and also plans for closing existing gaps with respect to the accreditation standards.

There is a 100 page limit for the iSER excluding Tables and Appendices.

**Objectives and Content**

The iSER is an action plan showing how the School will address its areas for improvement during the period of initial accreditation and how the School will maintain continuous improvements in its program. The iSER outlines what gaps need to be closed to meet expectations of AACSB standards and how current activities meet the expectations of the standards, which ones, and how. The school will continually update the iSER during the Initial Accreditation process until alignment can be demonstrated. The iSER is an evolving document and ultimately transfers into the final SER used as the basis for the on-site peer review team visit.

The iSER should:

- Lead to a performance level that satisfies AACSB International accreditation standards.
- Demonstrate that the resources necessary to satisfy the standards will be available.
- Show how these resources will be managed to reach that performance level.

The iSER should reflect two levels of analysis. The first level should identify areas of strength and areas for improvement in each standard.

The second level should formulate an action plan for addressing weaknesses during the period of initial accreditation and for maintaining continuous improvement of strengths. The action plan must identify specific improvement activities and establish a timetable for the completion of each of these activities. The iSER should also address the resources, the individual(s) responsible for each activity, and an anticipated completion date.

In general, most iSERs contain four separate and distinct sections:

1. **Background information on the institution and the School:**
   - Location of the Institution, including all non-main campus programs offered by the School
   - Institution's Mission
   - Structure of the School
   - Special Activities of the School
   - Types of Degrees Awarded
   - Number of Students
2. **The mission statement:**

The iSER should contain the School's mission/vision statement. This section should include a discussion of the process(es) utilized for mission development and the process(es) that will be utilized for ongoing review and refinement of the mission. Opportunities for stakeholder involvement in these processes should be noted.

3. **A gap analysis of the strengths and areas for improvement of the School:**

The iSER should include a gap analysis of the strengths and weaknesses of the School in relationship to each of the standards. This section should begin with a description of the processes that were used in the development of the self-assessment and that will be used for monitoring and assessing continuous improvement with regard to the standards. The gap analysis should also identify which expectations of AACSB standards are currently satisfied and which expectations of the standards remain to be met.

4. **An action plan:**

The fourth section of the iSER should outline the plan for continuous improvement, especially those improvements needed to satisfy the accreditation standards. The above referenced self-assessment is translated into detailed actions necessary to satisfy the standard and to ensure continuous improvement. The person(s) and/or group(s) who will be responsible for implementing the actions, the measures for assessing the implementation, the processes involved, the timetable for the completion, and the required resources should be presented in a summary table.

**Relationship to the Strategic Management Plan**

The iSER naturally represents a facet of the School's overall strategic management planning processes. As such, the School’s Strategic Management Plan should either be presented as an appendix to the iSER, or the iSER should be depicted as a part of the Strategic Management Plan.

**Submission of the iSER**

iSERs are considered by the IAC four times during the year. Contact your AACSB Accreditation Staff Liaison or check the AACSB website for submission deadlines. Submitted iSERs should be signed by the institution’s chief executive officer, chief academic officer, and head of the School indicating their approval and commitment. iSERs should be submitted electronically and in hard copy format (one complete set). Please check the AACSB website for the submission guidelines. The page limit for the iSER is 100 pages not including tables and appendices.

A copy of the iSER should be provided to the Mentor prior to submission to the IAC. The Mentor will submit a recommendation to the IAC. Involvement of the Mentor as drafts of the SER are developed facilitates this evaluation and, more importantly, provides the School with an ongoing benefit from review and comment. Once completed, the SER and Mentor recommendation will be presented to the IAC for review.
VIII. REVIEW OF THE INITIAL SELF-EVALUATION REPORT

Role of the Mentor

The Mentor thoroughly reviews the School’s iSER and submits a written recommendation to the IAC. The Mentor’s recommendation should address:

- commitment to achieving AACSB International accreditation; evidence of stakeholder (e.g., students, faculty, staff, community, university administrators) commitment to the Initial Accreditation Process and AACSB International accreditation
- the School’s understanding of both the Initial Accreditation Process and AACSB International standards for accreditation
- mission consensus demonstrated through stakeholder involvement (e.g., students, faculty, staff, community, university administrators)
- whether the mission is realistic, visionary, and detailed enough to serve as a guide for selection of alternatives and opportunities
- the likelihood that the School will meet AACSB International standards and attain accreditation; the Mentor may recommend that the School should withdraw since it has no reasonable chance to achieve accreditation
- internal and external assessment processes for achieving quality and continuous improvement
- evidence that the School’s iSER accurately projects the current situation and future direction and activities to be taken by the School, that the action steps listed and the corresponding completion dates and assigned responsibilities for each step appear to be realistic, and that the plans enable the School to align with accreditation standards
- any unique strengths or weaknesses that need to be observed and tracked during the Initial Accreditation Process and addressed in the iSER updates.

The Mentor’s review of the iSER must, besides a recommendation, also include the completion of the iSER Review Template.

Criteria for Evaluating the iSER

1) To what extent will achievement of the actions outlined in the iSER result in attaining a level of quality appropriate for accreditation?

2) Does it include these important elements?
   - Clearly identified objectives and outcomes
   - A schedule for progress checkpoints and completion
   - Measurements of progress
   - Accountable individuals or functions
3) Is it?
- Specific: does it focus on the issues, outcomes, and processes identified in the self-assessment?
- Quantifiable: can progress and achievement be tracked and measured?
- Realistic: are overall and specific outcomes and objectives consistent with the mission and level of resources? Is the targeted year for the initial accreditation visit realistic? The School should be aware that programs in business shall satisfy the standards during the final self-evaluation year.
- Comprehensive: does it cover all standards? Is the emphasis on overall quality and continuous improvement?

4) Does it explain which AACSB standards expectations are currently met and how?

**Initial Accreditation Committee Review of the iSER**

Each iSER will be presented and reviewed by the IAC. The IAC will take one of the following actions:
- Accept the iSER and invite the school to apply for the initial accreditation visit
- Accept the iSER, with comments outlining concerns of the Committee to be addressed by the School in its annual iSER update
- Request that the iSER be revised and resubmitted to address specific issues and concerns identified by the Committee
- Reject the iSER

**IX. ACCEPTANCE OF THE iSER**

When the iSER has been approved by the IAC, the School is on track to achievement of accreditation. The School is allowed up to five years to align with the standards, with the final two years of alignment corresponding to the development of the final Self-Evaluation report and the visit year. During this period, the School must submit iSER updates (at least one per year) to the IAC. The IAC reviews the updates and provides its comments in the form of a decision letter to the School with a copy to the Mentor.

**Self-Evaluation Report Implementation**

Central to the Standards Alignment phase is the ongoing assistance available to the School. This ongoing assistance includes:
- Networking (feedback sessions at the Annual Meeting)
- Review of the School's iSER updates
- Education (AACSB International seminars)
- Consultation involving a continuing relationship with the Mentor for up to three years during implementation of the iSER
- AACSB Staff Liaison to provide assistance with questions
With ongoing assistance, the School implements the goals and actions outlined in its iSER and communicates with the IAC on progress through the submission of iSER updates. The School is free to adjust its iSER as appropriate during this period; such adjustments must be described in the next update.

**Role of the Mentor**

Once the iSER is accepted, the formal relationship between the Mentor and the School continues for up to three additional years until a Peer Review Team Chair is appointed. The mentor will submit annually, or more frequently if necessary, feedback to the IAC on the progress the School is making towards alignment with the standards.

**How Do We Know We Are on Track?**

The iSER update is the only formal contact with AACSB International, aside from the Mentor, Accreditation Staff Liaison and eventually the Chair, while preparing for accreditation. Business Schools are encouraged to seek advice and evaluation of their progress from the Mentor and the Accreditation Staff Liaison.

### X. iSER UPDATES

Each year or sooner, the School will make a report to the IAC on the progress it is making towards meeting the objectives documented in the iSER. The original action plan summary table of the iSER should be included, indicating the status of each action item. Action items that have fallen behind their scheduled completion dates should be discussed in the text of the iSER update. Those action items that are no longer relevant, due to changes in either the internal or external environments of the School, also should be highlighted for discussion in the text of the update.

The IAC will review the iSER update to determine if acceptable progress is apparent.

The iSER update should:

1. Include tables 2-1, 15-1, and 15-2.
2. Not exceed twenty pages excluding tables.
3. Respond to concerns, issues, and/or recommendations requested by the IAC in its last review of the program, if any.
4. Explain how the School has met the objectives established for the past year of the plan. If the objectives have not been met, provide details (attach a copy of the action plan time frame originally submitted and any subsequent revised time frames). When outcomes or milestones are reported, Schools should support that these outcomes are the result of a continuous improvement process with appropriate stakeholder input. IAC review of iSER updates will focus on process development, implementation, and outcomes.
5. Report any changes in the environment (internal or external) that affect the planned alignment with the standards (e.g., a new mission, new president, new dean, changes in enrollment, or deviations from the projected number of faculty as described in the iSER).
6. Explain how existing strengths have been maintained or improved.
7. Report any new areas of necessary improvement that have emerged.

8. Report any other adjustments to the actions described in the iSER (e.g., changes in the time frame leading to the initial accreditation visit).

9. Explain how the School will have the necessary continuing support and resources from the administration to meet the objectives outlined in the iSER.

10. Include the signed approvals of the institution’s chief executive officer, chief academic officer, and head of the business School indicating their certification and continuing commitment.

iSER updates should be submitted electronically (IAC@aacsb.edu); please contact AACSB International for applicable guidelines.

Committee review of iSER updates

The School’s iSER update should be sent to the IAC for review. Prior to the IAC meeting, the liaison and reader, along with mentor input, develop perceptions and compare notes. If there are differences or if clarification is needed, the liaison will contact the Mentor for more information. At the IAC meeting, both the liaison and reader will present their impressions. A discussion will focus on what the School has accomplished, as well as areas of concern. The key focus is on whether the School is making acceptable progress toward the accomplishment of alignment with the standards and preparation for accreditation. If a School is not making acceptable progress, the IAC will recommend that it withdraw from the process. This review process is depicted below.

The IAC decision will be one of four options:

1. Acceptance of the iSER update without issues or concerns.

2. Acceptance of the iSER update with issues to be addressed in the next update.

3. Non-acceptance of the iSER update due to inadequacy of information provided or a determination that evidence of acceptable progress toward accreditation is not apparent. In such cases, the IAC will outline its concerns and will request a supplemental update.

4. Rejection of the iSER update with a decision to remove the School from the process. This option would follow a prior warning that acceptable progress had not been made with the specific concerns to be addressed.

Validation of Progress

iSER updates provide feedback to the IAC on the School’s progress. Schools should be clear and forthright so that the IAC can advise and assist. Representations of compliance by the School with the accreditation standards can be verified by the Mentor with subsequent on-site visits during the standards alignment phase. The Mentor submits his/her report/feedback to the IAC to be reviewed simultaneously with the School’s update. This practice ensures a continuous dialogue and facilitates the flow of accurate information between the School and IAC.

The accreditation decision will be based upon a direct assessment of continuous improvement and overall high quality. Therefore, the School must be in a position to justify its representations at the time of its Peer Review Team visit. Only by gaining confidence that the standards are being met, obtaining continuous Mentor input on questions and
concerns, and being as realistic as possible when preparing its update will the School be best prepared for the initial accreditation peer review visit.

XI. TRANSITION TO INITIAL ACCREDITATION VISIT STAGE

When the action items described in the iSER are implemented and adequate progress has been demonstrated, the IAC will direct the School to file a letter of application for the initial accreditation visit. The letter of application will include the following:

- The list of degree programs offered by the School.
- The list of degree programs that have been approved for exclusion from review (if applicable)
- The list of Comparison Groups, including Comparable Peer Group, Competitive Group, and Aspirant Group.
- The timeframe requested for the on-site review to take place, and the corresponding date that the School plans to submit its final SER (at least 4-6 months before the tentatively scheduled visit date).

The letter of application for initial accreditation should be signed by the Chief Executive Officer, the Chief Academic Officer, and the Head of the Business School (Dean). Submission of the letter of application should be accompanied by full payment of the Initial Accreditation Fee.

Handoff to the Peer Review Team

Upon receipt of the letter of application for the initial accreditation visit and full payment of the Initial Accreditation Fee, the IAC will appoint a Team Chair. The Chair replaces the Mentor to assist the School with the development of the final SER and the schedule for the initial accreditation visit. The transition from Mentor to the Chair should be facilitated by:

- The passing of relevant documents (iSER, Strategic Management Plan, iSER Updates, School and IAC correspondence, and other relevant materials).
- A conversation between the Mentor and Chair to discuss issues and concerns.
- If possible, an introductory conversation between the Mentor, Chair, and host School Dean (may be at an AACSB function).

Following assignment of the Chair two additional team members will be assigned. The IAC Chair will select the additional team member(s) who may or may not appear on the list of comparable Schools submitted by the School.

Initial Accreditation Visit Overview

The School should begin to work with the Chair to finalize its SER. The School must submit the final SER to the PRT and the IAC for review at least 4-6 months prior to the on-site review visit. After the Peer Review Team reviews the final SER, the team drafts a pre-visit letter outlining the issues and concerns identified by the Team. The draft letter includes a “visit” or “no-visit” recommendation. The draft is forwarded to the IAC for review. In the interest of time this review can be facilitated off-line involving the
reader, liaison and chair and vice chair of the committee. If the IAC approves of the letter and agrees with the team’s recommendation concerning the continuation of the visit, the chair finalizes the letter and forwards it to the School along with confirmation of the on-site visit dates.

While the SER and other written materials provide the foundation for the visit, the PRT achieves greater understanding of the School through the on-site review. The pre-visit letter will point out specific issues to be addressed either before or during the visit. In addition, the pre-visit letter will also indicate areas of focus and requests for data and documents to be made available for the team during the visit.

Within 10 days following the on-site visit, the Peer Review Team submits to the School and the IAC a team visit report with the Team’s accreditation recommendation. The School has the option of submitting a response to the PRT report. The IAC reviews the following:

- Team visit report.
- The team’s accreditation recommendation.
- The School’s written response, if one is submitted.

The IAC can either concur with the Team’s accreditation recommendation or remand the recommendation to the PRT for reconsideration.

When concurrence is reached, the PRT and IAC recommendation for accreditation is forwarded for ratification to the AACSB Board of Directors. If the Board concurs, the School is awarded accreditation and joins the AACSB Accreditation Council, with a continuous improvement review to occur in year five.
XX. INITIAL ACCREDITATION REVIEW PROCESS SCHEDULE

The timeline shown below is a representation of Initial Accreditation Peer Review Visits and corresponding Initial Accreditation Committee (IAC) activity under normal circumstances. Changes to the normal visit timeline may be made on a case-by-case basis at the IAC’s discretion. All questions regarding your institution’s timeline should be directed to IAC@aacsb.edu.

<table>
<thead>
<tr>
<th>Description</th>
<th>Timeline</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>School Deadline:</strong> Send letter of application and team nominations</td>
<td>Upon receipt of IAC decision letter directing School to proceed to self-evaluation</td>
</tr>
<tr>
<td><strong>IAC Chair:</strong> Review of Proposed team</td>
<td>Within 45 days of application</td>
</tr>
<tr>
<td><strong>AACSB International:</strong> Invites individual team members</td>
<td>Following IAC approval of team composition</td>
</tr>
<tr>
<td><strong>AACSB International:</strong> Set review team visit date</td>
<td>Upon confirmation of team members</td>
</tr>
<tr>
<td><strong>School:</strong> Invite team chair to visit host campus (optional)</td>
<td>Chair visit (if necessary and time allows) generally takes place before submission of SER</td>
</tr>
<tr>
<td><strong>School:</strong> Confer with review team (optional)</td>
<td>Annual Meeting or other convenient arrangement (Year of self-evaluation)</td>
</tr>
<tr>
<td><strong>School Deadline:</strong> Submit final SER, executive summary and faculty profile to team and AACSB</td>
<td>4-6 months prior to Visit</td>
</tr>
<tr>
<td><strong>Team Chair Deadline:</strong> Submit draft pre-visit letter to AACSB for review by full or subcommittee of IAC recommending visit or no-visit and listing concerns (standard by standard analysis)</td>
<td>Normally 2 months prior to the visit date</td>
</tr>
<tr>
<td><strong>Team Chair Deadline:</strong> Send pre-visit letter to School</td>
<td>Normally 45 days prior to scheduled team visit date</td>
</tr>
<tr>
<td><strong>Team Chair:</strong> Confer with host regarding visit schedule</td>
<td>45 days prior to visit</td>
</tr>
<tr>
<td><strong>School Deadline:</strong> Submit response to pre-visit letter (to team and to AACSB)</td>
<td>As per date listed in previsit letter</td>
</tr>
<tr>
<td><strong>Team Chair:</strong> Send Team Visit Report to School and IAC.</td>
<td>Within 10 days after the visit</td>
</tr>
<tr>
<td><strong>School Deadline:</strong> Send optional response to Team Visit Report</td>
<td>Within 10 days of receiving team’s report</td>
</tr>
<tr>
<td>Initial Accreditation Committee: Review team’s recommendation and send to Board</td>
<td>As per scheduled committee meeting date</td>
</tr>
<tr>
<td><strong>Board:</strong> Ratifies and sends letters to School</td>
<td>Ratification performed via electronic ballot to the AACSB Board of Directors</td>
</tr>
<tr>
<td><strong>Official Recognition</strong></td>
<td>Annual Meeting (Normally, in April following the Visit)</td>
</tr>

XXI. SCHOOL COMPARISON GROUPS

Processes to support the accreditation review include the selection of comparison groups to form a relevant context for judgments, inform strategic planning activities, and assist in the selection of Peer Review Team members. Reviewers from comparable institutions are better prepared to make evaluative judgments about the School, to understand the School and its aspirations, and to offer suggestions for the School’s improvement.

What is required?

The School submits three comparison groups selected from members of the Accreditation Council and submits this information with the letter of application for the initial accreditation visit. Comparison groups may be selected on the basis of institutional or program comparisons. It is important to note that the same school may be used in all three groups -- peer, competitor, and aspirant -- based upon the characteristics of the school and/or its program.

- **Comparable Peers:** A list of schools considered similar in mission and assumed appropriate for performance comparison. A minimum of six comparable schools must be provided. The schools should be chosen carefully to match key characteristics of the School. In addition to mission, some features that might be salient when choosing comparison schools include student populations served, size, degree levels, and primary funding source.

- **Competitive Group:** A list of schools so directly competitive that conflict of interest considerations exclude their personnel from the review process. The competitive school list may be of any number. Only those schools should be included where the direct competition for students, faculty, or resources is so compelling that the appearance of a conflict of interest is present.

- **Aspirant Group:** A list of schools that provides a developmental goal for the School, represents management education programs or features that the School hopes to emulate, and place the vision and strategy of the School in context. The list of aspirant schools may be of any number, though a minimum of three schools is required to compile the statistical data reports. Statistical data reports are be pulled from DataDirect, upon request, to assist the school and Peer Review Team in establishing context of the school relative to its peer and aspirant schools.

Comparison groups do not imply categories or rankings of schools or members accredited by AACSB International. These lists are for the benefit of the School and the Peer Review Team in the accreditation review.

Although comparison groups include only AACSB International accredited schools of business, Schools are encouraged to look beyond academe for examples of best practices and potential Peer Review Team members. Processes for selecting Peer Review Team members strive to add value and support involvement from corporations and other appropriate persons.

AACSB has developed an on-line system to assist with identification of potential comparison schools. The on-line service, available at
https://datadirect.aacsb.edu/public/profiles/search.cfm, offers advanced search functions that produce institution lists based on optionally selected criteria.

The School should demonstrate in the review that it relates appropriately to the operational levels of the comparison school set. In some circumstances particular features of the School may make some of the data non-comparable.

Use of the Comparison Groups
The initial accreditation committee chair approves Peer Review Team members from the Peer Review Team Nomination Form. Sometimes for scheduling or other reasons, reviewers who are not on the Comparison Group list may be proposed.

XXII. FINALIZING THE SELF-EVALUATION REPORT

When finalizing the SER, Schools are encouraged to seek the guidance of the Team Chair who can provide the following assistance:

1. Become familiar with the School and the institution as a whole, which is best achieved through an on-site campus visit (optional).
2. Identify areas in the existing SER that may be unclear, point out issues where further clarification may be needed, and single out other areas of possible concern. The Chair can provide answers to questions about the Initial Accreditation process, the standards and also assist the School in making a determination on the readiness for accreditation.
3. Encourage the School to submit materials as early as possible to allow time for possible modifications.
4. Ensure continuous communication throughout this stage.
5. Provide illustrative guidance, not prescriptive guidance.
6. Work with the School to ensure their SER:
   - Tells the institution’s story.
   - Is no more than 100 pages in length, or less, depending on size and complexity of the degree offerings.
   - Is well-written and understandable.
   - Includes faculty vitae as an appendix.
   - Includes a summary for each section of the SER to help guide the reader through the materials.
   - Includes summary data, retaining large information compilations on campus, as opposed to including in the report.
   - Limits appendices to those directly relevant, and includes a table of contents and cross-references.

The SER is due to the team members and the IAC between 4-6 months before the scheduled Peer Review Team visit and should be sent as follows:
- Electronic copies of the SER and appendices to all members of the team with a copy to the Chair of the IAC at IAC@aacsb.edu.
- One hard copy of the SER to each peer review team member.
- One hard copy of the SER to the Chair of the Initial Accreditation Committee, c/o AACSB International, 777 South Harbor Island Blvd., Suite 750, Tampa, FL, 33602-5730, UNITED STATES.

XV. PRE-VISIT LETTER

After the Peer Review Team reviews the final SER, the team drafts a pre-visit letter outlining the issues and concerns identified by the Team. This draft letter, including a “visit” or “no-visit” recommendation, is forwarded to the IAC for review. If the IAC concurs with the Peer Review Team’s recommendation, the pre-visit letter is sent to the School. If the committee does not concur with the peer review team’s recommendation it may remand the recommendation to the team for information, clarification, or similar reconsideration when an apparent inconsistency is noted. A conference call is convened with the committee chair and vice-chair, liaison, reader, Peer Review Team members, and AACSB International staff. The team may submit additional information or a revised pre-visit letter recommendation following this conference call.

If the recommendation is “visit”, the pre-visit letter will point out specific issues to be addressed either before or during the visit. In addition, the pre-visit letter will also indicate areas of focus, requests for data and documents to be made available for the team during the visit, and provides confirmation of the on-site visit dates.

If the recommendation is “no visit” for initial accreditation, and the IAC concurs with the team’s recommendation that a visit would be premature, the school has two options:

1. Pursue a visit as originally scheduled. The school must provide a written request for a visit within two weeks to the IAC (IAC@aacsb.edu).
2. Withdraw from the initial accreditation process.

XVI. PEER REVIEW TEAM VISIT

The on-site review affords the best opportunity for the team to assess the School’s case for initial accreditation. An important aspect of the on-site review is verification of data supporting the information presented in the final SER. Equally important is the team’s assessment of the qualitative dimension of the educational programs that only can be verified through face-to-face interaction.

The Team Chair will structure the on-site review schedule and team member assignments to ensure a reasonable balance between information gathering/verification and information analysis/synthesis. Under certain circumstances the IAC chair may require that, at the cost of the School, a senior AACSB accreditation staff member accompanies the team during the visit. This is done for the purpose of providing guidance and consistency. The staff member is part of the team, but does not have any voting rights with respect to the accreditation recommendation.
Planning the Visit

1. Prior to the visit, the Team Chair will work with the School to clarify the itinerary and appointments for the visit. This step enables the School to make necessary arrangements and appointments with appropriate representatives.

2. Prior to the visit, the Team Chair will inform the School of on-campus needs such as housing, workroom, meeting rooms, computers, printers, and word processing support. A workroom should be established on campus for the team to review records and information. The hotel should include a working area for the team.

3. The team meets with the School early in the visit to confirm schedules and discuss any last minute information needs or itinerary changes.

4. During the initial phase of the visit, the Peer Review Team will be focused on fact gathering/verification. This process will allow the Team to further explore the qualitative implications of the facts and concerns previously identified. Early fact gathering/verification allows the Peer Review Team sufficient time to discuss these concerns with the School.

5. Generally the Peer Review Team will meet with the President and Provost both at the start of the visit to discuss the purpose of the on-site review and at the conclusion of the visit to provide the team recommendation.

6. The Team Chair will make time each day to speak with the host dean to report on any issues that have been uncovered. The host Dean will then have the opportunity to clarify or provide additional information for accuracy.

7. The School should expect a visit of at least two and a half days. The visit may be shortened or lengthened with the mutual agreement of the School and Team Chair. Team members generally arrive in the late afternoon or early evening prior to the first full day.

8. At the conclusion of the visit, the Team will share its impressions and concerns and make its recommendation first to the host dean and then to the president and provost (if appropriate). The Peer Review Team will make every effort to have a draft of the report completed before leaving campus. The final report is due to the School and the IAC (IAC@aacsb.edu) within 10 days of the visit.

Possible document/meeting requests from the Team:
The following records may be requested:

Students
- Official graduation lists for the most recent commencement. The team will review the lists and may request a sample of transcripts.
- Records/folders for students enrolled during a recent term and class rolls/lists, including faculty names for all business courses taught during a recent term.
- Probation and dismissal lists for the most recent academic year.
- List of transfer students for a recent term and records relating to the assurance of learning accepted toward meeting degree requirements.
- Information regarding student employment for recent graduates.
- Student usage of the library and computer technology.

**Faculty**
- Faculty files for all participating and supporting faculty teaching during a recent term, including faculty CVs.
- Files on promotion and tenure cases for the prior five-year period.
- Research output, including samples of output or access to output for the previous five-year period.
- Faculty professional development plans.
- Updated faculty data sheets, as appropriate.

**Programs**
- Course syllabi for all business courses used to satisfy the curriculum standards.
- Copies of articulation agreements with other institutions.
- Curriculum descriptions for any new programs to be introduced.
- Final exams for all core business courses taught during a recent term.
- Outcome assessment information, such as learning goals, measurements, and results.

**University/School**
- Copies of all institutional catalogs, promotional brochures and recruitment information.
- Copies of any additional documents, handbooks, policy manuals, and other relevant materials.

**The following meetings and discussions may be requested:**
The Peer Review Team may find that meetings and discussions with entities such as those listed below can provide additional opportunities for the team to understand and assess the School's mission, processes, and outcomes:

- Key administrators or staff in the business unit, such as department chairs, associate deans, assistant deans, program directors, center directors, advisors, and others.
- Chief executive and chief academic officers of the institution, e.g., president, chancellor, provost, academic vice-president, etc.
- Other university deans.
- Key committees, such as promotion and tenure, strategic planning, curriculum, assessment, and research.
Faculty representatives, e.g., senior faculty representatives, junior faculty representatives, clinical faculty representatives, part-time and adjunct faculty representatives; participating and supporting faculty representatives, tenured and untenured faculty representatives.

Student service directors, e.g., graduate admissions, academic support and advising, career services and placement, information technology.

Students such as class visits, students assembled by School, and student advisory board.

Facilities such as the library, computer labs, classrooms, other campus sites.

The School should understand its obligation to the team and must bear the responsibility in making its case and demonstrating that processes are in place to assure quality and continuous development and improvement. The School must explain its mission and objectives in terms of accreditation standards application.

When meeting with the dean and president, the team chair should emphasize that the recommendation is subject to change, either positively or negatively, to reflect consistency of decisions across Schools with similar missions. **No public announcement should be made until official notification is given by AACSB and the team recommendation has been ratified by the Board.**

**XVII. THE TEAM VISIT REPORT**

In preparing the School’s Team Report, the Peer Review Team will assimilate the relevant information, constructively assess and perform a micro and macro analysis to (1) assess the School’s performance relative to each standard; (2) determine how the School’s policies and practices, in relation to each standard, affect achievement and continuity of overall high quality; and (3) consider whether or not the School’s processes lead to outcomes that are consistent with its mission and objectives. The Team performs a standard by standard review of the school’s situation. Additionally, the report notes the processes utilized by the School to ensure achievement of the standards, as well as those processes that may inhibit achievement of the standards.

**Elements of the Peer Review Team Report:**

- Statement of Team Recommendation**

For initial business accreditation the options include:

1. **Accreditation.** The Team concludes that the School fulfills its mission and achieves overall high quality with processes in place that assure continuous improvement. An appropriate strategic plan is in place to guide activities to the first five-year continuous improvement review.

2. **A one-year deferral.** The Team indicates specific deficiencies that can be resolved within one year, but precludes immediate accreditation. The Team should set forth issues to be addressed in the School’s deferral report. Normally a visit will follow review of the report.
3. **Denial.** The Team indicates that the School has deficiencies that cannot be remedied within one year and that preclude a favorable assessment of overall high quality. The letter should set forth clearly the deficiencies that led to the recommendation.

- Identification of areas that must be addressed prior to the first continuous improvement review or during the deferral review.
- Relevant facts and assessment of strengths and weaknesses on a standard-by-standard basis in support of the team accreditation recommendation.
- Commendations of strengths, innovations, and unique features.
- Opportunities for continuous improvement relevant to the accreditation standards.
- Summary of the peer review visit.

**If a team member is not in agreement with the majority of the team, that team member has the option to file a minority report along with the official team report.**

**Optional Response to the Peer Review Team Report**

Within 10 days of receipt of the Peer Review Team Report, the School has the option to respond to the PRT report clarifying any of the comments and/or factual information noted within the report. A copy should also be sent to the IAC Chair in care of the AACSB International office, or electronically to IAC@aacsb.edu.

**XVIII. REVIEW OF THE TEAM RECOMMENDATION**

**Initial Accreditation Committee**

The IAC will normally review the team visit report and any response from the School at its next scheduled meeting. Their review will result in a decision to:

- Concur with the Team recommendation.
- Remand the team’s recommendation
  - The committee may remand the recommendation to the team for information, clarification, or similar reconsideration when an apparent inconsistency is noted. A conference call is convened with the committee chair and vice-chair, liaison, reader, Peer Review Team members, and AACSB International staff. The team may submit additional information or a revised recommendation following this conference call.
  - Based on additional information or an updated team recommendation, the committee concurs with the recommendation or refers the case to a panel.
    1. A panel consists of three individuals: one from the original team; one from the committee; and an outside member who is an experienced accreditation reviewer. The outside member serves as chair.
    2. The panel must reach agreement on recommendation
- Panel decision to achieve initial accreditation or denial is forwarded to the Board of Directors for ratification consideration.
- Deferral decisions do not require ratification by the Board of Directors.

**Board of Directors**

The IAC concurrence to accredit or deny initial accreditation is forwarded to the AACSB Board of Directors for ratification. When the Board of Directors ratifies, the institution is accredited and joins the AACSB Accreditation Council, with a continuous improvement visit in year five. The Board will send official notification to the institution and provide formal recognition at the AACSB International Annual Meeting, usually held in April of the visit year.

The Board may remand the recommendation to the IAC for further information.

**School Options**

The institution may withdraw its application for initial accreditation any time prior to consideration by the Board of Directors. In the case of a decision to deny accreditation, the School may submit an appeal to the Chair of the Board of AACSB International. An Appeal Panel will be formed to hear the appeal and make a judgment. The decision of the Appeal Panel is final.

**XIX. DEFERRAL REVIEW**

If, during the initial accreditation review, the Peer Review Team finds standards-related deficiencies that can be resolved within one year, the team will recommend a one-year deferral review. The Peer Review Team identifies these deficiencies in the Peer Review Team Visit Report and states the expectations for the deferral review. A deferral team will be determined and the school is provided with a due date for the submission of the deferral report. The School submits its response to the specific concerns cited by the Peer Review Team to the Deferral Team and IAC (IAC@aacsb.edu)

**Deferral Review Team**

The Deferral Team selected by the IAC normally includes one member from the original Peer Review Team and one member from (or appointed by) the IAC.

The Deferral Team focuses on the issues noted in the decision letter from the accreditation committee chair. The original Peer Review Team Visit Report may be referenced for further information relating to the issues detailed in the decision letter.

**Review of Deferral Report from School**

In the year following the original Peer Review Team visit, the School will submit a written report to the Deferral Team and the IAC. This report details the progress made to address the issues noted in the original Peer Review Team Report. After review of the deferral review the team conducts an on-site visit to determine if the concerns have been satisfactorily addressed. Ordinarily, the deferral Team conducts a one and a half day on-site review within one year following the original Peer Review Team visit.
Review of Team Recommendation

The process for committee review of the Deferral Review Team Report is the same as that one outlined for Peer Review Team Recommendations.

The IAC concurrence with the deferral team to accredit or deny initial accreditation is forwarded to the AACSB Board of Directors for ratification. When the Board of Directors ratifies a recommendation for initial accreditation, the institution is accredited and joins the AACSB Accreditation Council, with a continuous improvement visit to occur in year five. The Board will send official notification to the institution and provide formal recognition at the AACSB International Annual Meeting, usually held in April of the visit year. AACSB does not publicize the names of institutions to which the Board denies accreditation.
