Education: AACS Bridge Program, George Mason University (2011)  
Business Leadership Program, Wharton Business School (2007)  
MBA Rice University (2006)  
PhD Chem Eng, Rice University (1979)  
BS Chem Eng, U. of Buenos Aires (1975)

Employment: Royal Dutch Shell Group (1983 – now)  
Held positions of increasing responsibility in Research, Engineering, and Operations, in all major sectors of the oil business, leading innovation and technology in oil and gas operations.  
Current position (2006-2011): Manager Innovation & Technology, and Chief Scientist. Responsible for delivering break through innovative solutions for oil and gas production. Budget around \$100 mill, leading a staff of 50 PhDs and engineers, with global reach. As Chief Scientist I acquired extensive experience in advising senior government and industry leaders, both within Shell and at major oil producers around the world, in process safety and technical integrity of oil operations.

Rice University, Houston Texas – Lecturer in Materials Science and Engineering (1981-1991)
