TEACHING EXPERIENCE

NORTHEASTERN ILLINOIS UNIVERSITY, Chicago IL

2015 / Present

Adjunct Professor, Computer Science

Have taught at a Graduate & Undergraduate level IT Project Management using a combination of instructional sources including; Case Method, Computer Simulation, Video, Workshop, Socratic Method, and when the opportunity presents itself industry based Guest Speakers.

- Created a new Graduate Level course entitled “Enterprise Architecture & IT Strategy” that will focus on how technology can create a competitive advantage. This course will be offered in Spring 2018 semester.
- Working with the Dean of the College of Business Management, Associate Dean of Arts & Sciences, and other combined departmental faculty designed a hybrid curriculum between the Business School & Computer Science departments to offer students new opportunities to learn & blend business & information technology concepts.
- Participated on a number of Panel Discussions both in the NEIU’s Business School and also the Computer Science Department

Member of NEIU’s College of Business & Management Executive Advisory Council

Member of NEIU’s Computer Science Advisory Council

PROFESSIONAL EXPERIENCE

SENSIENT TECHNOLOGIES, Hoffman Estates IL (\$1.5B Flavors & Colors manufacturer) 2014 – Present.

Director, Global Information Technology

Recruited to execute a Turn Around for a highly under invested, antiquated & dysfunctional IT organization. Re-organized IT, implemented new standards & practices, & have started to revitalize the functional domain which includes 78 employees with a series of outsourcing partners at an operating budget of \$17.2M & capital budget of \$8.5M.

CORBION Nv, Lenexa KS (formerly CSM Nv, 1.0B Food ingredient manufacturer) 2013

Vice President, Information Technology

Led & completed a large IT disentanglement program as CSM decided to divest a significant portion of its business. This program was the largest & most complex portion of the IT program to carve out all related applications, infrastructure, & staffing resources for a \$2.2B portion of business.

CSM Nv (now CSM Bakery Solutions), Lenexa, KS (3.2B Food ingredient manufacturer) 2002 – 2012

Vice President, Information Technology

Recruited into newly created position to write and implement the first cohesive IT strategy for the business from a series of disjointed systems and infrastructures as a result of un-integrated business acquisitions. Was responsible for a multi-ERP environment using a common infrastructure with selected outsourcing of IT commodities. Implemented a strategy of standard systems and processes supporting two distinctly different businesses within the organization, manufacturing and distribution. This work also included defining technology standards, preferred sourcing relationships, and an IT governance framework. Directed fifty-three (53) internal resources with an operating budget of 19.5 million per year with an average capital budget of 4.5 million per year. In-Direct reports include seven (7) organizations providing outsourced services.

ACCO BRANDS, INCORPORATED, Lake Zurich, IL (\$1.2B Office Products manufacturer) 1999 – 2001

Director, Systems Development

Was hired to change the Systems Development area from a technical enabler of software to a team that partnered with the business to implement effective systems & processes. Directed twenty-eight (28) developers and business analysts in a multi-platform environment using an IT governance approach to properly manage a portfolio of projects and resources that focused on maximum return on investment. This model included a charge-back process for IT project & support costs.
