- Outstanding managerial or professional achievements that have significantly impacted an organization or the industry
- Preferred candidates generally should have less than five years of classroom experience and less than two years of full-time classroom experience.

*AACSB Bridge Program requirements are aligned with the AACSB Accreditation Standards and may be subject to change.

Please Note:

- Applicants may attend any program within a year of their acceptance given there is no change in education/experience. However, after one year they must re-apply in order to attend a future program
- The AACSB Bridge Program does not make participants qualified to teach at an AACSB-accredited school. It is intended to provide industry professionals the tools to successfully teach at an AACSB-accredited institution as instructional practitioners.

Please be sure to attach your resume to the email before submitting your application.
